

April 27, 2020

Western Technology Center campuses will remain closed until May 15, 2020. WTC leadership will continue to monitor conditions in western Oklahoma and base our decisions from guidance received from State and cities COVID-19 orders.

When a campus is open, WTC will continue to provide the proper sanitation and distancing protocol while providing the needed training. Class sizes will be limited. Some additional campus restrictions may be implemented. We look forward to providing full program services soon.

Continue to stay healthy and safe!

Sincerely,

Hoyt Lewis, Superintendent
