

Message from the Superintendent

April 19, 2021

We are so thankful to have been in person training this full school year. Even though we are seeing improvements across Oklahoma in regards to the spread of COVID-19, WTC is continuing to follow all CDC protocols for a safe learning environment: wearing face coverings, social distancing, regularly washing hands, and sanitizing work areas.

Due to 14 school districts being a part of Western Technology Center, the decision has been made to not gather for an in-person graduation for full-time programs at Burns Flat, Sayre and Weatherford this year. We cannot in due diligence provide the social distancing needed for 14 communities coming together. A Graduation Video is being prepared and will be released on our social media sites and a link on our website shortly after May 21, 2021. WTC celebrates all the hard work and recognizes the accomplishments of our students. A special picture has been taken and will be given as a memento to our graduates.

Western Technology Center is committed to “educating people for success”!

Kathe Corning, Superintendent
Western Technology Center
