

March 27, 2020

Dear Western Technology Center Community:

With the recent announcement from the State Board of Education that Oklahoma K-12 students not return to the classroom for the remainder of the current school year, Western Technology Center is putting together a continuous learning plan so our full-time program students will be able to complete their training. We are creatively looking at ways to continue all of our services throughout the district while keeping students, clients, staff and the community safe.

As you can imagine this will be a significant transition for our students and our teachers. Vocational education has always been a hands-on approach to learning. This is an unprecedented situation and it is requiring an unprecedented response.

If you are a full-time program student and haven't already started online instruction with Western Technology Center, on April 6th all programs will be moving to online instruction. Instructors are working remotely so if you have not already heard from your instructor, please call and leave a message for Burns Flat Programs: 580-562-3181 or Sayre Programs: 580-928-2097.

We encourage you to continue to follow CDC guidelines by (1) washing your hands regularly; (2) staying home, if you can; and (3) practice social distancing of at least six feet from others. Be safe!

Just a reminder that our campus buildings are closed. If you need to talk to any staff member please call and leave a message.

Together we continue to “educate people for success”!

Sincerely,

Hoyt Lewis, Superintendent
